

GENE TECHNOLOGIES

# AMPLIQON IIII

## PCR ENZYMES & REAGENTS

Ampliqon was the first Danish PCR enzyme manufacturer founded in 2002 in Copenhagen by some of Denmark's most skilled PCR specialists. Ampliqon products are always freshly produced and delivered immediately after production ensuring maximum shelf life.

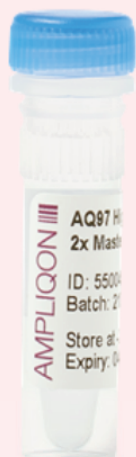

## Taq DNA Polymerase Master Mix RED

- All-in-one 2x master mix for great convenience
- Timesaving reaction setup
- Direct loading onto agarose
- Easy visualization of pipetting
- Red tracking dye
- Increased reproducibility
- High product yield

**Pls contact  
us for  
Special  
Discount**

## AQ97 HIGH FIDELITY DNA Polymerase 2x Master Mix

- All-in-one 2x master mix for great convenience
- Timesaving reaction set-up
- High fidelity: >60x Taq Fidelity
- 3'→5' proofreading exonuclease activity
- High elongation rate: 10 sec/kb
- Long-range capability: 11 kb gDNA
- Good coverage on DNA templates with low to high GC content

Authorized distributors for Bio-Rad, Bio-Basic & Ampliqon
